(c) whether some operators have requested to allocate spectrum in the new band of airwaves known as PCS 1900 which has been opposed by other operators;

(d) if so, the details thereof; and

(e) the reasons advanced by the opposing operators?

THE MINISTER OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (SHRI DAYANIDHI MARAN): (a) No, Sir. The provision already exists in the National Frequency Allocation Plan 2002 (NFAP 2002) for IMT-2000 (3G) applications in the 2GHz band.

(b) Not applicable.

(c) to (e) Request for allocation of Spectrum in the frequency band known as PCS 1900 has been received for CDMA based systems. Other operators have advanced the reason that simultaneous use of both IMT-2000 (3G) and CDMA systems in PCS 1900 band in the same area would cause harmful interference.

Call charges by different service providers

*223. SHRI SANTOSH BAGRODIA:
SHRIR.K.ANAND:

Will the Minister of COMMUNICATIONS AND INFORMATION TECHNOLOGY be pleased to state:

(a) the details of cellular and WLL service providers in different parts of the country; and

(b) whether Government have any plan to advise the Regulatory Authority to introduce a system so that rates chargeable by different service providers are more understandable to the ordinary consumer?

THE MINISTER OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (SHRI DAYANIDHI MARAN): (a) List of Access (Cellular

and WLL) Service Providers in different parts of the country is given in the Statement (See below).

(b) In terms of Telecom Regulatory Authority of India (TRAI) Act, 1997, TRAI has been mandated for fixation of tariff for telecom services.

In view of intense competition in the access service segment, TRAI has forborne the tariffs for these services with the exception of rural fixed lines in basic services and roaming in cellular services. Further the TRAIs Telecommunication Tariff Order (TTO) 21st Amendment dated 13-06-2002 provides that any service provider in a service area can offer upto 25 tariff plant at a given point of time. This includes both post-paid and prepaid tariff plans. To make the rates chargeable by different service providers more understandable to the ordinary consumer, TRAI has issued a directive on 24th May, 2004 to all the Telecom Service Providers and their Associations. The salient point of the directives are:—

(i) The Service Providers are required to strictly adhere to publication/advertisement of tariffs in the format prescribed by TRAI.

(ii) The website of the service provider must cover the entire detail of Tariff plan in the format prescribed by TRAI for this purpose. Such details shall also include methodology/assumptions used in deriving financial implication for different slabs of minutes of usage.

(iii) The service providers shall ensure that all information to tariff charges are available in the website before they are launched in the market.

The Telecommunication Tariff (31 st Amendment) Order 2004 dated 07.07.2004 states "A tariff plan once offered by an Access Providers shall be available to subscriber for a minimum period of six months from the date of enrolment of the subscriber to that tariff plan".

In view of various steps taken by TRAI as stated above, there is no need to advise TRAI in this regard.

Statement

List of Access Service Licensees in the country

As on 28/2/2005

Total Unified Access Service Licences (UASL)=75 (MB 31+MC 16+N 26)
{MB-Migrated Basic, MC-Migrated Cellular, N-new}

CELLULAR = 62

BASIC = 2(PSU) {BSNL and MTNL were given single licence for their respective Service Areas}
